

# ICRA FUNDAMENTALS

VIDEO SERIES

## Infection Control Risk Assessment Training Program

By taking ICU's six-part video-based training program, healthcare vendors will learn how and why they play a critical role in preventing Healthcare-Associated Infections (HAIs). The vendor-paid ICRA Training Program is free to participating hospitals and offers a four-hour course and online quizzes accessible 24/7. Upon completion of the program, vendors receive an annual certification recognizing safe work practices.

### *Module 1*

What Are  
Healthcare-Associated  
Infections(HAIs) and  
Why Training Is Necessary

### *Module 2*

Working in A Hospital -  
Healthcare Settings

### *Module 3*

Infection Control  
Risk Assessments (ICRAs)

### *Module 4*

Importance of Barriers

### *Module 5*

Safe Work Practices In  
The Healthcare Environment

### *Module 6*

Recruiting Others As  
Part Of The Team To Prevent  
Healthcare-Associated  
Infections
